HIGH WATER RECORD FOR NORWICH

Never in City's History Was More Water On Hand in Mid-July-700 Million Gallons are Stored in Fairview and Stony Brook-Almost Enough for Year's Consumption.

As regards its supply of city water, Norwich has attained a record mark. With 700,000,000 gallons of water impounded in Fairview and in Stony Brook together, there is more water on hand this mid-July than there was a year ago, which was the first summer that the city had Stony Brook reservoir at its disposal. Superintendent J. J. Corkery's latest measurements show that Fairview is now 18 inches below high water mark while Stony Brook is down four feet beneath full pond. From the Venturi meters and other means of measuring the water, it is being used at the normal rate of 2,000,000 gallons a day, from which there has been little deviation for a long time, it will be seen therefore that Norwich has enough water. for a long time. It will be seen therefore that Norwich has enough water stored up, in case of a drouth, to supply its needs for close on to a year. And this in spite of the fact that the rainfall was June was exceptionally low, and that for the first fifteen days of July, 1.71 inches, only normal.

But there will be no drought in the vicinity of Norwich if the old legend that is connected with the name of St. Swithin holds true. For the heavens opened and it rained copiously on strength of the strength of the second that is connected with the name of St. Swithin holds true. Ruskin on Traveling

To any person who has all his senses about him, a quiet walk, over not more than ten or twelve miles of road a day, is the most amusing of all traveling; and all traveling becomes dull in exact proportion to its rapidity. Going by railroad I do not consider as traveling at all; it is merely "being sent" to a place, and very little different from becoming a parcel.-Ruskin.

Carlyle and Ceremony. Thomas Carlyle and his wife were so wedding-frightened that it is set to think of it. Replying to a letter of his describing his fantastic terrors, she wrote: "For heaven's sake get into a more benignant humor, or the incident will not only wear a very original aspect, but likewise a very heart-breaking one. I see not how I am to go through with it."

Mr. Timkins-"You ought to have seen our cat last night. He went out in the pantry in the dark and caught a mouse. Steed up on his hind legs and drove the mouse out from behind a baking soda can in one of the cup-boards." Mr. Buttenheim—"Well, why don't you keep your mice in a more convenient place?"
